Attention: All Funeral Homes

Re: Selection of Grave

Effective: Immediately

In order to have the arrangements with the families go as smoothly as possible, we are requiring appointments be set-up with our office in advance before the families go out to the cemetery. PLEASE DO NOT advise the families to go straight to cemetery to pick a plot. The grounds crew have been advised that appointments need to be made in advance. You or the Family must call us at the Kern Cemetery Office 559-686-5544 to make an appointment. We will no longer accept walk-ons. There is a lot that goes into selection of a grave/plot and we want to make sure they receive our full attention during that process. It takes the coordination of the office staff, grounds crew and the family to select the grave. We are implementing new policies and procedures that will hopefully be better for our families and our staff.

Thank You,

Clara L. Bernardo

District Manager
